# CURRENT LIST of MEDICAL LITERATURE

Vol. 15

August 13, 1948

No. 6

## Subject Groups According To Journals

- 1. Allergy
- 2. Anatomy; Histology
- 3. Anesthesia
- 4. Anthropology
- 5. Aviation Medicine
- 6. Bacteriology; Parasitology
- \* 7. Biology
- \* 8. Cancer
- \* 9. Cardiovascular System
- \* 10. Chemistry; Physics
- \* 11. Dentistry; Stomatology
- \* 12. Dermatology
- \* 13. Diagnosis; Clinical Methods
- \* 14. Digestive System
- 15. Endocrinology
- \* 16. Forensic Medicine; Toxicology
- \* 17. Genetics; Eugenics
- \* 18. General
- \* 19. Geriatrics
- \* 20. Gynecology; Obstetrics
- \* 21. Hematology
- \* 22. History; Bibliography; Biography
- \* 23. Hospitals
- \* 24. Immunology; Serology
- \* 25. Industrial Medicine
- \* 26. Infectious Diseases
- \* 27. Medicine.
- \* 28. Military and Naval Medicine
- \* 29. Miscellaneous
- \* 30. Musculoskeletal System
- \* 31. Neurology; Psychiatry
- \* 32. Nursing
- \* 33. Nutrition
- \* 34. Ophthalmology
- \* 35. Otorhinolaryngology; Phoniatry
- \* 36. Pathology
- \* 37. Pediatrics; Child Welfare
- \* 38. Pharmacology
- \* 39. Physiology
- \* 40. Psychology
- \* 41. Public Health; Epidemiology
- \* 42. Radiology
- \* 43. Respiratory System
- \* 44. Surgery, General
- \* 45. Therapeutics
- 46. Tropical Medicine
- \* 47. Tuberculosis
- \* 48. Urology.
- \* 49. Venereal Diseases (see also  
12. Dermatology)
- \* 50. Veterinary Medicine

THE ARMY MEDICAL LIBRARY  
Washington, D. C.

**THE ARMY MEDICAL LIBRARY**  
**PHOTODUPLICATION SERVICE**

The purpose of photoduplication is to extend the services of the Library to those at a distance who cannot come in person to consult its collections. In the case of the Army Medical Library it provides an economical and efficient means of contributing more largely to the advancement of medicine and the public welfare.

In order that photoduplication may render the greatest possible aid to those engaged in medical research, the following policies in regard to its conduct will be observed:

1. The Library will loan without charge single microfilm copies of original articles published in medical periodicals not available locally. Such loan requests should be routed through libraries, governmental agencies, or research institutions. The microfilm, being a part of the duplicate collection of the Library, may be used for ninety days and will be returned to the Library at the end of the loan period.
2. Requests for microfilms and photoprints for official business in the Department of Defense will be filled free of charge.
3. Microfilms will also be sold to those desiring to retain them, at a rate of 50 cents for each 50 pages or fraction thereof from a single article.
4. For the benefit of those not having facilities to read microfilms, photoprint copies of separate articles from periodicals will be supplied at a charge of 50 cents for each 10 consecutive pages or fraction thereof from a single article.
5. Except when the order is accompanied by the written permission of the copyright owner, the Army Medical Library will not reproduce books protected by copyright, or entire periodical issues, nor will it reproduce excerpts from periodical issues within 6 months of their publication date.

**INSTRUCTIONS**

All requests, including those for free loans, must be submitted on Army Medical Library official order blanks (AML Form 48). A supply will be furnished on request.

All purchase orders must be accompanied by payment in cash or by check or money order made payable to the treasurer of the United States, or by Army Medical Library Coupons, which may be ordered in any quantity from the Library at 50 cents each.

Federal agencies will be billed periodically by Standard Form 1080 (Voucher).

Refunds for material the Library is unable to supply will be made by coupons unless cash refund is specifically requested.

---

The CURRENT LIST OF MEDICAL LITERATURE is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Price: \$3.00 per year (\$3.75 foreign); 10 cents per single copy. All communications regarding subscriptions should be addressed to the Superintendent of Documents.

Published weekly by the ARMY MEDICAL LIBRARY 7th Street & Independence Ave., S. W., Washington 25, D. C., as an intraservice publication of the Department of the Army. Lists all articles of medical interest contained in current journals received. Subject index provided monthly. Exchange invited.

CURRENT LIST OF MEDICAL LITERATURE  
Vol. 15, No. 6 August 13, 1948

## 7. Biology

- Ann. Appl. Biol., Lond., 1948, 35: No. 1 (Mar.)
- EVANS, A. C. Studies on the relationships between earthworms and soil fertility; some effects of earthworms on soil structure. 1-13.
- GARRETT, S. D. Soil conditions and the take-all disease of wheat; interaction between host plant nutrition, disease escape, and disease resistance. 14-7.
- JACOBS, S. E., & MARSDEN, A. W. The role of antibiotics in the decomposition of sawdust; inhibition of the growth of cellulose decomposing fungi. 18-24.
- MCGOWAN, J. C., BRIAN, P. W., & HEMMING, H. G. The fungistatic activity of ethylenic and acetylenic compounds; the effect of the affinity of the substituents for electrons upon the biological activity of ethylenic compounds. 25-36.
- GROVE, J. F. The fungistatic activity of ethylenic and acetylenic compounds; esters of halogeno-fumaric acids and acetylene dicarboxylic acid. 37-44.
- VAN DER PLANK, J. E. The relation between the size of plant and the spread of systemic diseases; the aphid-borne potato virus diseases. 45-52.
- PONNETTE, A. F., & STREICKLAND, A. H. Virus diseases of cacao in West Africa; technique of insect transmission. 53-63.
- RAINEY, R. C. Observations on the development of the cotton boll, with particular reference to changes in susceptibility to pests and diseases. 64-83.
- HEWLETT, P. S. Physical factors affecting the toxicity of sprays to stored product insects; the quantity of carrier in which a given amount of active ingredient is applied. 84-93.
- WAY, M. J., & SYNGE, A. D. The effects of D.D.T. and of benzene hexachloride on bees. 94-109.
- STOKER, R. I. The phytotoxicity of D.D.T. and of benzene hexachloride. 110-22, pl.
- COTTRILL, H. J. Tetrazolium salt as a seed germination indicator. 123-31.
- BUNTING, E. S. Oil seed crops in Great Britain. 132.
- HOLLY, K. Control of weeds in oil seed crops. 133.
- JARY, S. G., & CARPENTER, K. Insect pests of brassica seed crops in Romney Marsh, Kent. 134-6.
- Austral. J. Exp. Biol., 1948, 26: Pt. 2 (Mar.)
- REID, G. A pharmacologically active substance in serum and platelets which stimulates the suprarenal medulla. 107-21.
- NOSBAL, P. M. The metabolism of erythrocytes; respiration in the absence and presence of methylene blue. 123-38.
- SHAW, F. H., KEOGH, P., & MACCALLUM, M. The possibility of the dual nature of sympathetic ganglion cells. 139-46.
- SHAW, F. H., KEOGH, P., & MACCALLUM, M. The pharmacology of quinine methiodide. 147-52.
- TRETHEWIE, E. R., & DAY, A. J. New therapy of ophidianiasis. 153-67.
